Why choose Patio Enclosures?

We do it all. There are no middlemen.

From design and manufacturing, to installation and service.

A brand you can trust

Patio Enclosures® has been a trusted name in sunrooms since 1966. Trust us to manage every aspect of your project from start to finish.

Your room at your budget

During your free in-home consultation we'll develop a personalized plan that will comfortably fit your budget, yet exceed your expectations.

Unlimited design options

You dream it, we'll bring it to life. Options and upgrades are available to reflect your taste and style. Together we can create your perfect space.

Custom made in the USA

Your needs are unique. That is why we individually fabricate every part of your room at our state-of-the-art manufacturing facility located in Ohio.

Quality installation

Fully trained professional installers and carpenters ensure the highest quality workmanship.

We stand behind what we make

We confidently offer a limited lifetime warranty covering all manufactured products including glass, roof panels, framing, seals and more.

AllView Screen Rooms

Patio Enclosures screen rooms allow you to enjoy your outdoor living area while protected from pests and yard debris.

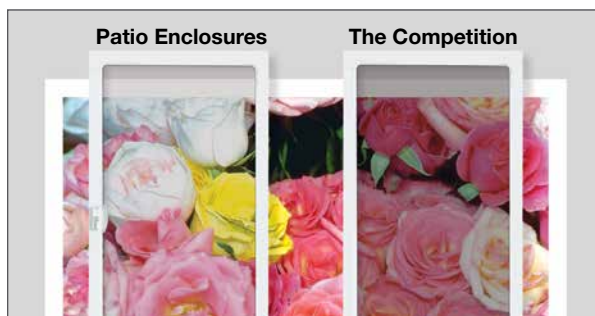

- **Durability** — Construction-grade aluminum frame for structural integrity and resistance to fading, peeling and chipping.
- **Structural integrity** — Roof system with structural I-beams withstands maximum snow and wind loads.
- **Dependability** — Windows and doors roll easily and screens won't fall out with our unique triple-track system.
- **Visibility** — Black aluminum mesh screens increase visibility, eliminate sagging and stay cleaner than ordinary fiberglass screens.
- **Security** — Easy-grip interior screen latches keep screens locked in place.
- **Safety** — Great for children, pets, and a must-have for screen rooms above ground level.
- **Custom made** — After careful measurements, our products are manufactured to precisely fit your space.
- **Added light** — Add more natural light and a view of the sky with high-performance glass roof panels. Solar shades included.
- **Easy conversion** — Enjoy easy conversion to a three-season sunroom at any time.
- **Convenience** — Our electrical raceway can be added to make wiring a breeze.

AllView Three-season Sunrooms

Patio Enclosures three-season* sunrooms utilize the same master frame as our screen rooms, but incorporate single- or double-pane glass to provide even more comfort and protection from the elements.

- **Durability** — Construction-grade aluminum frame for structural integrity and resistance to fading, peeling and chipping.
- **Structural integrity** — Roof system with structural I-beams withstands maximum snow/wind loads.
- **Dependability** — Windows and doors roll easily and screens won't fall out with our unique triple-track system.
- **Security** — Our locking hardwood door handles feature a single-point locking system with an anti-lift bar for added security.
- **Safety & Comfort** — Single- or double-pane insulated, tempered glass increases safety and your overall comfort.
- **Ease of use** — Stainless steel ball bearings surrounded by nylon tires eliminate rust and reduce track wear keeping your windows and doors operating smoothly.
- **Weather protection** — Our advanced weatherlock offers superior performance to keep inclement weather out of your sunroom.
- **Visibility** — Black aluminum mesh screens increase visibility, eliminate sagging and stay cleaner than ordinary fiberglass screens.
- **Custom made** — True customization with edge-to-edge glass for maximum view and ventilation.
- **Added light** — Add more natural light and a view of the sky with high-performance glass roof panels.
- **Convenience** — Our electrical raceway can be added to make wiring a breeze.

Three-season sunrooms expand your living space and let you enjoy your backyard more often.

AllView Elite Three-season Sunrooms

Patio Enclosures Elite three-season* sunrooms are our most popular, offering upgraded security features and Euro-style handles.

- **Durability** — Our modernized construction-grade aluminum frame provides structural integrity and has the highest resistance to fading, peeling and chipping.
- **Structural integrity** — Roof system with structural I-beams withstands maximum snow/wind loads.
- **Dependability** — Windows and doors roll easily and screens won't fall out with our unique triple-track system.
- **Security** — Color-matched Euro-style handle easily engages the dual-point throw-bolt locking system and secondary night latch with ventilation set-back for exceptional security.
- **Safety** — Single- or double-pane insulated, tempered glass increases safety and comfort.
- **Ease of use** — Stainless steel ball bearings surrounded by nylon tires eliminate rust and reduce track wear keeping your windows and doors operating smoothly.
- **Weather protection** — Advanced weatherlock with interlocking sashes and polypropylene weather stripping with fin seal create an airtight system to keep out inclement weather.
- **Visibility** — Black aluminum mesh screens increase visibility, eliminate sagging and stay cleaner than ordinary fiberglass screens.
- **Custom made** — True customization with edge-to-edge glass for maximum view and ventilation.
- **Added light** — Add more natural light and a view of the sky with high-performance glass roof panels.
- **Convenience** — Our electrical raceway can be added to make wiring a breeze.

Soaring heights or special shapes are no obstacle for Patio Enclosures' custom designs.

EXPAND YOUR
Living Space

*Breathe new life into
your existing patio.*

Under Existing Roof Porch & Patio Enclosures

Enclose your existing space with any Patio Enclosures® AllView or ComfortView system. It's the most cost-effective way to turn your existing patio, porch, deck, or breezeway into additional living space. We can custom design and custom manufacture the perfect solution for your home.

Screen in your porch to enjoy the summer breezes or add glass to extend the use of the space. You'll enhance the general appearance of your home while maintaining existing views. Minimal on-site construction makes the transition quick and easy.

- **Versatility** — Choose any wall system including screen, three-season aluminum or an all-season aluminum or vinyl frame in your choice of available colors.
- **Visibility** — Custom-cut glass fits your space and maximizes your view.
- **Custom made** — After careful measurements, our products are manufactured to precisely fit your space. We don't use stock sizes, so there's no need for fillers.
- **One-of-a-kind** — Keep the special features of your porch or patio, such as columns or arches. We can design a room to fit your unique space.
- **Energy efficiency** — Add energy-efficient, double-paned insulated glass to help control temperatures in your space.
- **Added space** — Enjoy additional living space seasonally or year-round, depending on the features of your existing space.

Breezeways

Get more *Enjoyment* from your outdoor space.

"I love being able to feel close to the outdoors in any kind of weather. Having an all-season sunroom, I can use it year-round."

★★★★★ Nancy, Bridgeville, PA

new addition screen rooms or sunrooms

"We love our room because we get to enjoy the outdoors no matter the weather. All the windows open wide to let us enjoy a cool breeze and they open and close effortlessly. The screens are so fine you can hardly see them."

★★★★★ Edward, La Grange Park, IL

"We love our enclosed porch for many reasons, such as having extra living space with the feeling of being outside without the annoyance of rain and insects. It is particularly great when we have a barbeque or entertain and want to eat outside."

★★★★★ Cathy, Cub Run, KY

glass or screen patio and porch enclosures

"Since having our room screened in, we spend most of our time out there reading and enjoying the outdoors."

★★★★★ Fred, Woolrich Twp., NJ

"We enjoy entertaining on our patio, and the enclosure protects us from the weather and keeps our patio furniture clean. We can also dine insect free. It truly expands the use of our patio to year-round!"

★★★★★ Dennis, Tucson, AZ

"I've had my patio enclosure for about five years now and still absolutely love it! The best investment for outdoor living."

★★★★★ Jeannie, Saugerties, NY

"True extension of our home. Cozy, comfortable and bug free! Love it!"

★★★★★ Eileen, Wendell, NC

SCAN ME

EXCEPTIONAL

Glass

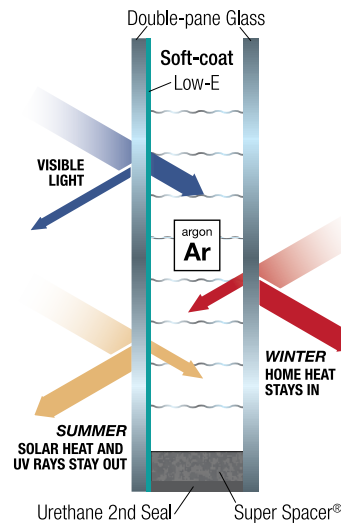

*The most critical aspect
of a sunroom.*

Our Exceptional Glass sets us apart

- **Exclusive Edge-to-Edge Advantage®** — Up to 98 percent glass for more view per square foot than any other sunroom.
- **Safety tempered glass** — We temper and custom cut the glass for every sunroom we create to keep your family safe.
- **IGCC/IGMA certified** — Our insulated glass passes the highest ASTM 2190 tests, including seal life and gas retention.

Glass Options

- **Single-pane** — Double-strength and tempered for safety.
- **Double-pane** — Double-strength, tempered, insulated and sealed. Utilizes warm-edge Super Spacer®.
- **Comfort-Gard® PLUS High-Performance** — Our best glass — double-strength, tempered, soft-coat low-e, insulated with Argon gas and sealed. Utilizes warm-edge Super Spacer®.
- **Special glazing and tints** — Clear glass with low-E improves energy efficiency while allowing in natural light. SolarBronze® tint also available.

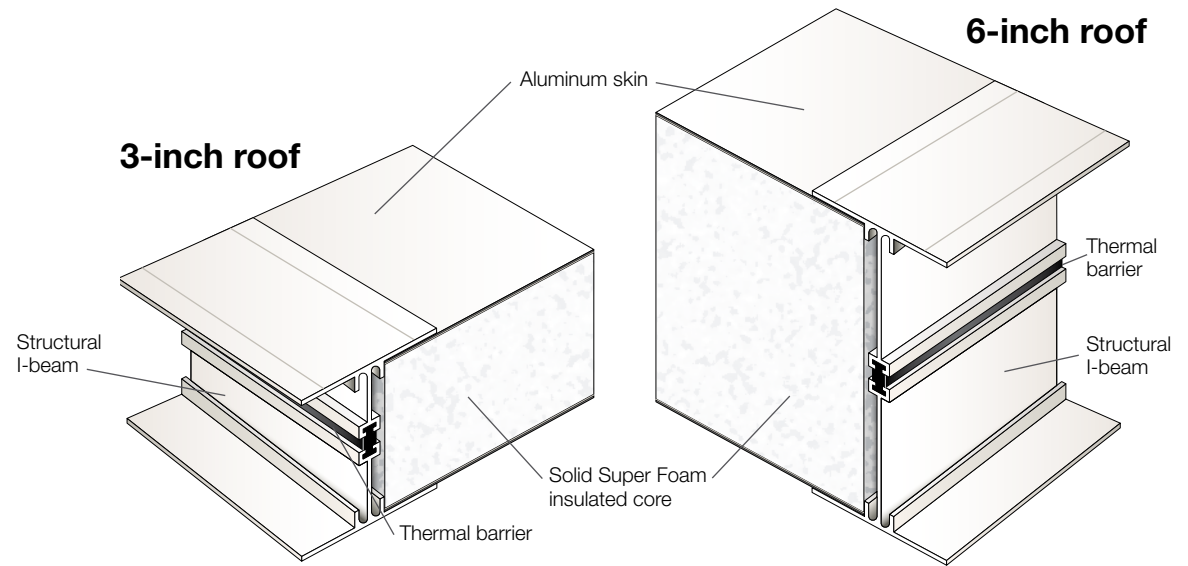

Super Spacer® is a registered trademark of Edgetech IG Inc. Edge-to-Edge Advantage® and Comfort-Gard® are registered trademarks. SolarBronze® is a trademark of PPG.

Built to Last

As energy efficient as it is strong

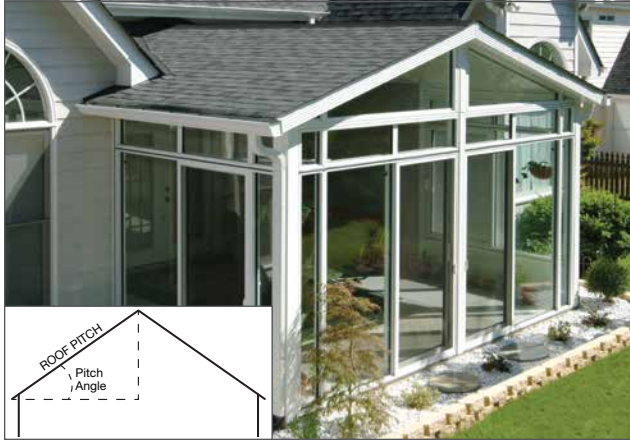

- **3- or 6-inch-thick panels** insulate from weather and sound providing maximum structural integrity and meeting code requirements in a wide range of room sizes and designs. *(3-inch roof standard on three-season rooms.)*
- **Structural I-beams** provide strength to withstand maximum snow loads and contain a thermal barrier to eliminate the transfer of heat or cold from the outside of the roof to the inside of the panel. This helps to keep your room more comfortable.
- **Three-foot-wide roof panels** (unlike our competitor's 4-foot panels) allow us to **use more structural I-beams**, providing you with a stronger roof. We go the extra mile to make sure your roof is one of the industry's best.

Super foam roofs for
super strength

This is an actual un-retouched photo shot in our Macedonia, Ohio production facility. The only support system under our 3-inch roof panels with structural I-beams are the ones you see. There were no additional support systems underneath.

Gable Roof

Single-slope Roof

Choose a gable (left) or single-slope (right) roof for your new enclosure. The pitch angle of the roof will be customized to suit your home.

Close-up detail of removable solar screen.

Your Patio Enclosures' roof is completely customizable. Choose gable or single-slope, white or sandstone, and customize the pitch of the roof to suit your home.

Exclusive Comfort-Gard® PLUS glass roof panels

Take in the views of the night sky and let natural light filter in from above with our patented 3'x3' glass roof panels. They are made with our most energy-efficient glass to reduce sun glare and help slow the effects of damaging UV rays.

Glass roof panels are a built-in part of our three- or six-inch super foam roof and the glass is flush with the roof to prevent snow and ice build-up that causes leaks. Because we design and manufacture in our own facility, you have maximum flexibility in placing them.*

Glass roof panels come with removable solar screens that allow you to control the amount of incoming light.

**Glass roof panel layout depends on snow loads in your area.*

Glass roof panels allow more natural light into your sunroom.

Removable screens on 3'x3' roof panels control incoming light.

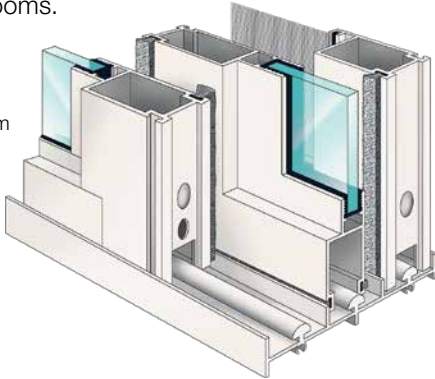

Glass roof panels flush with the roof prevent ice and snow build-up.

Buyers Guide

Triple-track system

All Patio Enclosures' rooms feature our easy-rolling doors or windows with screens. Our unique triple-track system features a separate track for each door. Doors roll easily, and screens, with their own track, won't fall out. Triple-track system is standard on three-season and screen rooms.

Patio Enclosures' triple-track system is standard on three-season sunrooms and screen rooms.

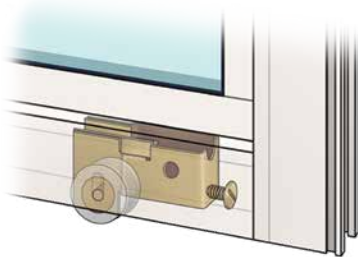

Ball-bearing wheels

Even large doors roll easily with Patio Enclosures' durable, adjustable, stainless steel ball-bearing wheels, surrounded by nylon tires to reduce track wear and eliminate rusting and sticking.

Our ball-bearing wheels and nylon tires will never wear out the tracks in your room providing easy operation of your doors and windows for the life of your room.

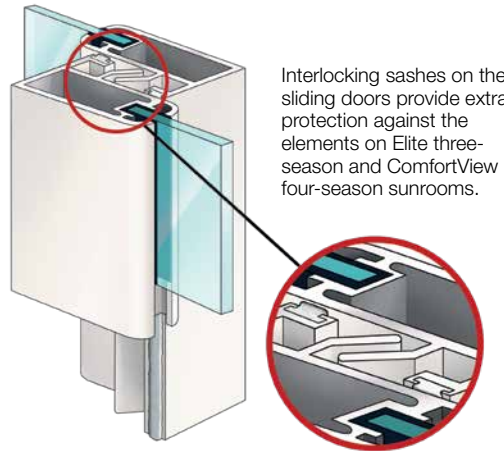

Stainless steel, ball-bearing wheels surrounded by nylon tires will never wear out the tracks in your AllView three-season sunroom.

Protection from the elements

All of our sunrooms are protected with polypropylene weatherstripping, but we don't stop there. Patio Enclosures adds advanced weatherlock, nylon pile weatherstripping where the doors meet, providing superior performance in keeping inclement weather out of your sunroom. It offers protection against wind and drafts and is standard on all of our rooms.

For additional protection from the elements in our Elite and ComfortView sunrooms, our interlock system provides a tight fit between structurally superior doors to further seal out wind and the elements.

Interlocking sashes on the sliding doors provide extra protection against the elements on Elite three-season and ComfortView four-season sunrooms.

Aluminum frames

Patio Enclosures manufactures a wide range of aluminum frames to suit your needs. Custom-extruded in the USA, the durable paints are resistant to chipping, fading and corrosion.

A 4¼-inch, thermally engineered aluminum frame is

Aluminum frames (continued)

standard on our ComfortView all-season sunroom. Thermal spacers throughout keep indoor and outdoor temperatures separate, so the room can be heated or air conditioned.

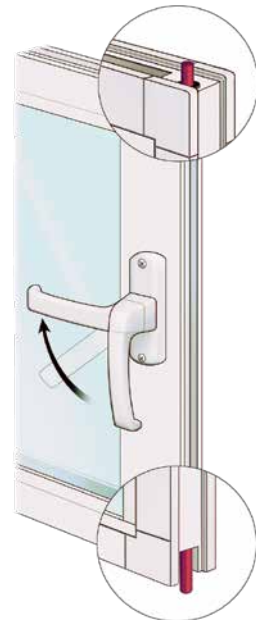

The frame of three-season and screen rooms is 3⅝-inch aluminum. Insulated glass can extend the seasonal use of these rooms.

Handles and locking systems

Door handles and locking systems vary based on type of sunroom.

The Elite and ComfortView sunrooms, as well as solariums, feature color-matched, Euro-style handles and our top-of-the-line, dual-point locking system plus night latch. Patio Enclosures' dual-point locking system with top and bottom throw bolts eliminates the need for dead bolts or lock-assisting systems. Top and bottom throw bolts lock in place with just a turn of the handle.

Screen rooms have standard easy-grip black handles and a single-point locking system.

Our dual-point locking system with top and bottom throw bolts eliminates the need for deadbolts or lock-assisting systems.

Super screens for a super view

Standard in all rolling window and door panels, our super screen is a nearly invisible black aluminum screen mesh. It outperforms less expensive fiberglass and eliminates the problems associated with other screens. It provides maximum visibility and strength, stays cleaner and resists sagging.

Our rolling screen panels are the finest in the industry. Made of high-quality, fully extruded materials, our unique design keeps our screen panels solidly in their tracks for dependable use.

Our nearly-invisible, black aluminum screens come standard in all our screen doors.

Design features

You'll save time and money, and enjoy the finished look of our optional electrical raceway feature. Installing conveniences such as cable, telephones and network cables will be simplified with our clean design.

Both heating and air conditioning can be added to your sunroom by a dedicated system using a separate thermostat. Energy-efficient heat pumps are also available.

Ceiling fans and lighting are design considerations for your new sunroom. Patio Enclosures will assist you with a custom design that fits your needs, your lifestyle and your budget.

Sunroom designer & 3D visualizer

Adding a new sunroom or enclosing an existing porch or patio can be hard to visualize! That's why Patio Enclosures has developed a Sunroom Designer and 3D Visualizer. When you schedule an in-home design consultation, not only will we assess your existing space and listen to your needs, but we'll also design your room using our Patio Enclosures Sunroom Designer and 3D Visualizer so you can see what your space will look like from the inside and out! Augmented reality will allow you to stand in your room and take in a 360-degree view!

"The finished product and quality of the materials exceeded our expectations. Top notch!"

"We've added 200 square feet to our living space. In the heat of summer or the cold of winter we get to sit in a comfortable room that makes it feel like we are outside."

★★★★★ Monnie, San Antonio, TX

Happy CUSTOMERS

"It makes my house look bigger and brighter! Best decision I ever made to get a patio enclosure."

★★★★★ Shannon, Goodyear, AZ

"We loved sitting outdoors on our patio, however, we were disturbed by insects like mosquitoes and wasps and I would scream finding lizards under the chair cushions. All that changed after we had our patio enclosed. We have reclaimed our most favorite part of the house."

★★★★★ Norlinda, Killeen, TX

Happy Customers

"Patio Enclosures turned our screened-in porch into a beautiful three-season room. We love the additional space and its easy maintenance. We especially enjoy sitting on the porch during a rainstorm — an unexpected bonus! "

★★★★★ Gayle, Yardley, PA

"Our screened porch is fantastic! Excellent communication throughout the process. I highly recommend this company."

★★★★★ Scott, Phoenix, AZ

"We have spent so much more time in here as a family since it has been installed. It's a perfect addition!"

★★★★★ Valerie, Elm Grove, WI
